of consulting technology and business backgrounds.

About Our Company

Scintel Technologies Inc. is an Atlanta, GA based company that assembles solutions to business problems for Global 2000 organizations through the application of outsourcing and enterprise consulting. We partner with our clients to conceptualize and realize technology driven business transformation initiatives by using a low-risk delivery model to accelerate schedules with a high degree of time and cost predictability. Our Technology and Delivery Innovation initiatives ensure that our clients are constantly equipped with solutions, frameworks and skills to meet emerging opportunities and threats.

Skill Requirements

- Experience leading deploying Liferay portal software development and production lifecycles.
- Experience developing ongoing operational support models and tooling for Liferay portal applications.
- Bachelors Degree in Computer Science or related area
- 4 years experience providing operational support for networked enterprise applications, preferably with Java/J2EE applications and the Unix/Linux operating systems necessary.
- Previous technical experience should include J2EE, JDBC, JCA, industry standard middleware products, UNIX shell scripting, Oracle and knowledge of Apache based web servers a plus.

Familiarity with standard web application monitoring suites, metrics and knowledge of transactional based monitoring highly recommended.

If you meet the above qualifications we invite you to apply now to hруса@scintel.com
