Transform Your Career!

**A Simple equation: Our Company +
your Career = Exciting growth**

Teamwork, growth opportunities and challenging work! Scintel is dedicated to build it's brand and service offering by creating talent teams of problem solvers with a variety of consulting technology and business backgrounds.

About Our Company

Scintel Technologies provides consulting and IT services to clients globally — as partners to conceptualize and realize technology driven business transformation initiatives. We use a low-risk delivery model to accelerate schedules with a high degree of time and cost predictability.

We deliver the full range of application outsourcing and enterprise consulting services. We provide solutions for a dynamic environment where business and technology strategies converge. Our approach focuses on new ways of business combining IT innovation and adoption while also leveraging an organization's current IT assets. We work with large global corporations and new generation technology companies - to build new products or services and to implement prudent business and technology strategies in today's dynamic digital environment.

Our Technology Innovation and Delivery Innovation initiatives ensure that our clients are constantly equipped with solutions, frameworks and skills to meet emerging opportunities and threats.

Our business is based on client relationships that are driven by value and shared goals and long-term partnerships, not rigid, lock-in contracts. We act as your partner in transforming your IT initiatives to align with your business. We accomplish with a unique approach based on:

Commitment to client partnerships and to their total success

Optimal offshore ratios resulting in cost effective resources

U.S.-based client managers, domain, and technology experts

Portfolio Analysis and Change Management core competencies
