A simple equation: our company +
your career = Exciting Growth

Teamwork, growth opportunities and challenging work!
Scintel is dedicated to build it's brand and service offering
by creating talent teams of problem solvers with a variety
of consulting technology and business backgrounds.

About Our Company

Scintel Technologies Inc. is an Atlanta, GA based company that assembles solutions to business problems for Global 2000 organizations through the application of outsourcing and enterprise consulting. We partner with our clients to conceptualize and realize technology driven business transformation initiatives by using a low-risk delivery model to accelerate schedules with a high degree of time and cost predictability. Our Technology and Delivery Innovation initiatives ensure that our clients are constantly equipped with solutions, frameworks and skills to meet emerging opportunities and threats.

Job Summary

Responsible for the design, development and implementation of SAPs Materials Management modules with a specific focus in the **Purchasing** area. The selected individual must have good knowledge of the Supply Chain Management business tools.

- Ability to perform hands on configuration in Supply Chain Management including integration points to Purchasing, Planning, Sales and Distribution, Logistics and Finance. A sound understanding of the business process fundamentals across order management, finance, manufacturing, logistics, purchasing.

Major Accountabilities

- Ability to write highly detailed functional specifications involving new custom functionality in the SCM area. Specs could encompass application development, enhancements and testing of such
- Ability to document testing criteria in the area of purchasing and review testing results performed by others for completeness and accuracy

- Follow procedures for documentation and testing as dictated by a validated environment
- Ability to communicate and present verbal and written ideas in a clear and concise business style
- Perform 'hands on' complex configuration in SAP to facilitate different global purchasing business processes and add-ons (i.e. workflow tool)
- Provide functional guidance to technical analysts
- Establish and maintain excellent relationships with end-users worldwide
- Act as a catalyst to promote ongoing global knowledge sharing
- Foster alignment and integration activities of cross divisional initiatives and programs as they apply to current business unit
- Support reporting and business intelligence requirements to ensure a robust reporting environment

Minimum Education Requirements

- Bachelor's degree in information systems, business administration, computer science, or equivalent technical field OR equivalent technical training.

Minimum Experience Requirements

- 4 - 7 years of SAP implementation experience in PTP area, with at least 5 years hands-on
- All round design, configuration and testing of SAP **Procurement** and **Accounts payable** knowledge with emphasis on:
 - Logistics Invoice Verification
 - Banking and Banking Interfaces
 - Invoice scanning interfaces and INVOICE COCKPIT SUITE
 - SAP Procurement and Contract Management – Sourcing
 - PTP Master Data
 - Design, configuration and testing of core Inventory Management
- Secondary Skills should be around knowledge of the following areas:
 - Design, configuration and testing of core FI/CO modules (GL, AP, AR)
 - Experience with report writer and report painter
 - Materials Requirements Planning
 - Batch Management
- Must have a minimum of one prior full cycle implementation experience, preferably multiple. Prior experience in a multinational environment is considered a plus.

If you meet the above qualifications we invite you to apply now to hруса@scintel.com
