

**Scintel Technologies retains KPMG,
Chennai – India for SEI-CMMi and ISO
advisory and consulting services**
December 19, 2008

Chennai, India – December 19, 2008 – Scintel technologies, a leading provider of global IT and business process outsourcing services today announced that it has retained the advisory and consulting services of world renowned company KPMG to help them in their quality initiatives.

Continuing its commitment to quality, Scintel is now moving towards SEI-CMMi Staged V1.2 assessment as well as ISO 9001:2000 certifications for all of our development centers. Scintel has retained the services of KPMG to help validate their existing processes and to partner with them in attaining its eventual goal of having all of its delivery centers operating at CMMi Level. Currently Scintel is in the phase of transition from existing practices to the CMMi Framework. The company is aiming for SEI-CMMi Assessment by November 2009 and for ISO certification by September 2009, for which a detailed 10-step implementation roadmap has been drawn up.

Executive Vice President Vidya Viswanath who operates out of the Chennai Global Delivery Center, India believes that a well-implemented quality process requires top-down commitment and bottom-up implementation and using CMMi for process maturity and predictable delivery that will provide a great value to our customers.

“This move is essential to continually improve our service levels to our clients and to also increase our overall effectiveness in solutions delivery. This initiative is very critical to the continuing success of Scintel”, said President & CEO, T.K. Ganesh.

About the SEI-Capability Maturity Model Integration (SEI-CMMI®)

The CMMI® model links management and systems engineering best practices to business objectives, providing a framework that enables organizations to continue to optimize performance in management and product development and delivery, even after Level 5 is achieved. Additional information about CMMI is available at www.sei.cmu.edu.
