

Scintel Technologies ‘Steps Out’ to Stop Diabetes

Company joins forces with McKesson and other metro Atlanta companies for the American Diabetes Association’s Step Out: Walk To Fight Diabetes

Atlanta, GA - September 9, 2010 – Scintel Technologies Inc., a leading provider of consulting and IT services, today announced that the company is working with McKesson Corporation and other companies to fundraise and participate in the American Diabetes Association’s (ADA) Step Out: Walk to Fight Diabetes. A Certified Business Partner of McKesson, Scintel has committed to raising \$10,000 and to providing active participants in the event.

“We are delighted that Scintel has committed to partner with McKesson and the ADA to fight this debilitating disease,” said Ian Lockwood, vice president, McKesson Corporate Strategy & Business Development. “Scintel’s passion for the cause is inspiring. After attending the ADA sponsorship breakfast early this year, Scintel immediately ‘Stepped Out’ and committed to help raise funds for the ADA.”

The ADA walk takes place on September 25, 2010, at Grant Park in Atlanta, Ga. This FREE registration event includes exciting activities and information for the whole family.

"Diabetes is a devastating disease that touches us all," said Rhonda King, associate manager for the Association. "Step Out: Walk to Fight Diabetes is such a wonderful event for friends and co-workers to come together and help change the future of diabetes. The camaraderie and spirit that is enjoyed by participating in this event is priceless. We are so pleased to have corporations such as Scintel Technologies and McKesson investing in our local communities!"

T.K. Ganesh, president and CEO of Scintel added, “We are pleased to be walking with McKesson and helping improve life for Georgians and millions of people across the country. I would like to challenge other members of the Atlanta technology community to ‘Step Out’ and support the fight against diabetes.”

Today, there are 24 million adults and children in the U.S. – including one million Georgians – and an additional 57 million have pre-diabetes. If current trends continue, one in three children will face a future with diabetes.

Step Out: Walk to Fight Diabetes is an event for the whole family, or for anyone who enjoys the feeling of being a part of a community. It’s an event for those who want to join the ADA’s efforts to help change the future of diabetes. For more information about diabetes or the Walk, call 1-888-DIABETES (1-888-342-2383), or visit www.diabetes.org/stepout. Join the Scintel team in Grant Park on September 25 by registering at <http://bit.ly/ADA-Scintel-McKesson>.

About the American Diabetes Association

The American Diabetes Association is leading the fight against the deadly consequences of diabetes and fighting for those affected by diabetes. The Association funds research to prevent, cure and manage diabetes; delivers services to hundreds of communities; provides objective and credible information; and gives voice to those denied their rights because of diabetes. Founded in 1940, their mission is to prevent and cure diabetes and to improve the lives of all people affected by diabetes. For more information please call the American Diabetes Association at 1-800-DIABETES (1-800-342-2383) or visit www.diabetes.org. Information from both these sources is available in English and Spanish.

About Scintel Technologies Inc.

Run by CIOs, Scintel partners with clients to understand their business environments, develop innovative applications and customized business processes, manage and enhance existing technology infrastructure and convert raw data into knowledge. Through a deep expertise in IT operations and a sustained focus on best practices, Scintel helps global clients engineer a strategic IT direction, and then applies the knowledge and the expertise to execute with precision. We solve real business problems by developing real business relationships. For more information, visit www.scintel.com.
